With over 25 years experience of bringing sports players and their families to Europe, Catalan Sport Tours is an Australian owned and operated business dedicated to allowing our young people to experience other cultures, societies and lifestyles. Our holidays are structured around sports but are designed to show young Australians and their families a full as possible European experience, from the history of our ANZAC ancestors, through to different cuisines, architecture and citiscapes.

Bloody fantastic.

The tour itself was something that we, as a group will most likely never experience again. Having the opportunity to visit the battlefields of World War I and honour our ancestors for what they achieved for us, was a truly memorable experience.

Your hospitality was exemplary. Your knowledge of the history on the sites we visited was nothing short of excellent. You guys certainly have a passion for what you do.
